Kigali, Rwanda

OBJECTIVE

Motivated and detail oriented Information Technology undergraduate with strong skills in hardware, problem-solving and programming. Eager to apply my technical knowledge to real-world projects, contribute to meaningful solutions and collaborate with experienced professionals while continuously developing my technical and professional skills.

EXPERIENCE

May 12th , 2025 - May 16th, 2025

RISA, NCSA and BSC
Trained in Networks and Cybersecurity with strong practical and troubleshooting abilities.

March 2025 - May 2025

Ministry of Education
Intern
Completed an internship at the Ministry of Education, where I gained practical experience in networking including network configuration, troubleshooting and system support.

May, 2018 - August, 2018

Auspicious Pionner
Leader
Participated in Savoir Plus program as a leader where we helped students by stimulating fast and logical reasoning.

May, 2019 - July, 2021

YIM
Leader
Volunteered with Youth Impact Mission, contributing to programs that empower young people through leadership development, skills training and community engagement while gaining experience in teamwork, communication and problem solving.

July, 2026 - October, 2026

Solvit Africa
Trainee
Completed practical training in UI/UX design, developing skills in user research, wireframing, prototyping, visual design and usability testing. Proficient in using Figma to create user-centered, intuitive and responsive digital interfaces while applying modern design principles.

EDUCATION

University of Rwanda, College of Science and Technology
Bachelor's degree_Information Technology

Ecole Secondaire Saint Vincent Muhoza
A2_Mathematics, Physics and Computer Science

SKILLS

Computer skills, Leadership skills, Problem solving, Adaptability, Technical skills, Time management skills, Critical thinking

UI/UX design, Microsoft Office Suite, Networking

ACHIEVEMENTS & AWARDS

Certified in Network Defence and Information Technology essential on CISCO Networking Academy, got certified in training on networks and cybersecurity and also by Free Code Camp in C#, HTML and CSS. Additionally, completed coursework of python on Deep learning Ai and got certified in completing Network Operation course by Internet Society . These certification have equipped me with practical skills in protecting computer networks from unauthorized access and attacks, enhancing my ability to contribute effectively to technical projects.

LANGUAGES

English : Very good French : Basic Spanish : Basic Kinyarwanda : Native
